

Rostraver Township has new Recycling Bins Available to Residents

The Rostraver Township Board of Commissioners is pleased to announce that larger recycling bins are available to Township Residents. Rostraver Township has acquired 33 gallon recycling bins in place of the smaller bins. Township residents are asked to trade in their smaller bins for a 33 gallon bin at the Township Road Department, 129 Recreation Drive, Belle Vernon from 8am-11am and 1pm-3pm Monday thru Friday. If no one is available at the Road Department, residents may trade their bins at the Administration Office, 201 Municipal Drive, Belle Vernon from 8am-4pm Monday thru Friday. As always additional bins are available for purchase for \$5.00.

Just a few reminders on Rostraver Township Recycling: Recycling collection will be from the same location on your property as your refuse collection. Recycling collection is on a biweekly basis (every other week). The following recyclables should be placed inside the recycling bin: Glass – brown, green, and clear glass containers, aluminum cans, steel cans, bimetallic cans, and plastic containers (recycling logos 1 and 2).

For more information on Rostraver Township recycling, please check out the Township Webpage at <http://www.rostraver.us/government/regulations/recycling.php>
